SUMMARY

Motivated and adaptable computer science professional with a strong technical foundation and a passion for problem-solving. Currently enhancing skills through a data science course, with a focus on applying data-driven insights and cloud technologies to drive impactful solutions. Known for leveraging creativity and analytical thinking to tackle challenges, and eager to contribute to cloud-based projects and scalable solutions. Committed to continuous learning, innovation, and delivering results in dynamic, fast-paced environments.

EDUCATION

Bachelor of Technology, Computer Science
APJ Abdul Kalam Technological University

2020-2024

Data Science & AI(Certificate course)
Keltron

SKILLS

Programming Language	Python, HTML5, CSS3, C, R
Database Management	MySQL
IDE	RStudio, Visual Studio Code
Soft Skills	Leadership, Proficiency in article writing(Malayalam), Adaptability

PROJECTS And PAPERS

Tech Service Providing Site: Developed a tech service platform using React.js, HTML, CSS, and JavaScript, integrated with an SQL database to provide users with comprehensive guidance and support for hardware and software solutions. The site features troubleshooting resources, tutorials, and technical assistance, while utilizing the database for efficient data storage and retrieval, ensuring a seamless user experience.

Farey Food ordering site: Developed "Farey," a mobile application using Flutter, with a MongoDB database and a Node.js server. The app collects data from various food delivery platforms through authorized web scraping, aggregating the best offers and deals for users. The platform provides a user-friendly interface to easily compare offers and make informed decisions on food delivery services.

Farey-The Genie: This paper presents Farey, a mobile app that aggregates food delivery offers from multiple platforms. Built with Flutter, Node.js, and MongoDB, Farey uses authorized web scraping to provide users with real-time deal comparisons. The app offers a user-friendly interface, helping users make informed decisions and save time and money on food deliveries. CO-CURRICULAR ACTIVITIES

- Active reader, loves reading novels and an active article writer
- Actively participated in NSS volunteer services

LEADERSHIP

- Served as Student Union Leader for four years, demonstrating strong leadership, effective communication, and the ability to organize and lead initiatives that fostered student engagement and collaboration.
- Managed multiple projects, worked closely with diverse teams, and represented student interests with a focus on problem-solving and community building.
